Officials To Seek More Insurance Co.'s.

TALLAHASSEE, Fla.—State Treasurer-Insurance Commissioner Broward Williams and Florida insurance leaders are heading for New York City in September to encourage more insurance companies to locate regional home offices and conventions in their state.

"We want more insurance company regional home offices and conventions," said the Commissioner. "We have a growing insurance industry and need more insurance companies to locate regional home offices and conventions in their state."

Commissioner Williams said the main thrust of his efforts should be in telling the insurance industry, "We want you in Florida. We welcome you."

Conventions play another important role in Florida's financial life. Tourism, including the convention business, is Florida's No. 2 revenue producer. And the state is geared for the tourist and the convention.

Commissioner Williams said Florida's convention facilities are unmatched anywhere. People can come to Florida and work hard during the convention, knowing that as soon as the program is over they can play to their heart's content in the sun regardless of the season of the year.

This latest Florida insurance industry-seeking effort was scheduled for September 21 in the Royal A Ballroom of the Americana Hotel in New York City.

Seventy-five insurance company executives and 36 presidents and executive secretaries of insurance trade associations were invited.

In his presentation, Commissioner Williams will discuss the many tax savings stemming from establishing a regional home office in Florida, the broad and ever-expanding market for the insurance industry in Florida, and other advantages a Florida operation offers.

He will also show color slides of Florida's regional home offices and some of the major convention facilities.

Also scheduled to address the luncheon group will be Victor H. Rosen, (ca) director of claims for Prudential Insurance Co., who will explain the benefits of locating a regional home office in Florida.

The industry-hunting trip to New York is sponsored by the Florida Insurance Department, Florida Power Corp. of St. Petersburg, Florida Power and Light Co., St. Miami, Jacksonville Area Chapter of Commerce, Orlando-Orange County Industrial Board, and Tampa Electric Co.

Each member of the Florida delegation will wear the traditional orange jacket, signifying the wearer is an official Florida booster.

Machine Aids Registration P. B. Jr. College

A gamble on the ability of home-produced computer experts to fully implement machine-assisted registration at Palm Beach Junior College appeared to be paying off this week.

For most PBJC day students, estimates are between 80 and 90 per cent, registration for the Fall Term is a 15 to 30 minute process, as compared to four or five hours that did not always fit individual in previous years.

Schedules turned out by computer preferences, but no method of registration ever devised has been able to do that.

Those who could not register by machine found the going no tougher than in former years. Most evening students will be registered 7 to 8 p.m. through August 17, by a hand registration line.

As is almost inevitable in the application of a system as complicated as this one, there were "some dropped stitches," according to Registrar Laurence Mayfield.

"All in all, however, I think we have proved that the system can work, and can give us a better registration," Mayfield said.

Data Processing Department Chairman Dale Washburn says the use of students to program such a complicated procedure is "unheard of" in the industry.

"A college in California recently spent \$1 million in Federal funds and two years of time trying to do what we've just accomplished with student help in about six months," Washburn said.

"So far as we know, no other college in the Southeast has tried what we are doing," Washburn said. Recent announcements of automated registration by the University of Florida and Miami-Dade Junior College refer only to conflict checking, which we have been doing for two years."

The bulk of the work on the new system was done by two recent PBJC graduates, George McAlley and Anthony Daffis. Washburn says their work is almost "unbelievable."

"It's like entering a Grand Prix with a motor scooter, and winning the race!" Washburn said.

Registration continues throughout this week. Day students register by appointment, and must already have completed all required application forms in order to

Buy Bonds where you work.

It's miserable work, crawling through a rice paddy. And being shot at. This American does the job for freedom's sake. So do thousands of his buddies. Many of these brave men also support freedom with their dollars. A majority of our servicemen overseas are investing in U.S.

Savings Bonds. Would you like to show this man you're with him? One good way is to buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll make a good investment. And you'll walk a bit taller.

Star-spangled way to sweeten up your future

The old American proverb says, "money isn't everything, but it sure helps."

And that goes double for the money you put in U.S. Savings Bonds. Because this money helps two ways.

First, it helps your future. Putting youngsters through college. Building homes and summer cottages. Buying cruises for you and the spouse. You dream it, Bonds can deliver it.

Second, it helps your country now, by making Uncle Sam a stronger influence in an unsettled world.

Your fellow Americans have tucked over 50 billion dollars into U.S. Savings

Bonds. Why not join them? There's no safer investment anywhere in the world.

Quick facts about Series E Savings Bonds

- You get 3 1/2% more money when they mature (7 years)
- You pay no state or local tax and can defer the federal tax until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are protected free if lost, destroyed or stolen

NEW FREEDOM SHARES

What are they? Who may buy them?

Americans have put their savings to work for freedom through U.S. Savings Bonds for many years. New Freedom Shares do the same job . . . plus. Read how.

Freedom Shares are U.S. Savings Notes. They pay a higher return than Savings Bonds, 4.74% when held to maturity. And they mature in just four-and-a-half years.

For regular Bond buyers only

These new Freedom Shares—which are not redeemable for the first year—are offered on a one-for-one basis with E Bonds, but only to people who belong to the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank.

There are four denominations of Freedom Shares, each of which may be paired with a Series E Bond of the same or larger denomination, as a "package." For instance, for

\$39 total, you can purchase a Savings Bond that matures at \$25 and a Freedom Share that matures at \$25.

America needs your help

When you buy Savings Bonds and Freedom Shares you do an important job for freedom, backing our men in Vietnam and helping to keep the country economically strong. The need is urgent. What *you* do counts.

Sign up

Tell your supervisor or the Payroll Department where you work (or any officer where you bank) that you'd like to join a Bond purchase plan. Decide how much you'll save . . . and whether you want Freedom Shares as well as Bonds . . . and just sign the authorization card.

You'll be helping your country as you help yourself; the country needs your help.
